The University of Tennessee, Knoxville, is the state's flagship campus in undergraduate, graduate, and professional studies; research and creative activity; and public service. The University offers more than 300 degree programs to its 25,000 students, who come from every county in Tennessee, every state in the nation, and more than 95 countries.

HISTORICAL BACKGROUND

The University of Tennessee, one of the nation's older institutions of higher education, celebrated its bicentennial in 1994. Two years before statehood was achieved, the legislature of the Southwest Territory, which later became Tennessee, granted a charter to Blount College, named in honor of William Blount, territorial governor. Located near the center of Knoxville's present business district, Blount College was nonsectarian in character, which was unusual for an institution of higher education in that day. The University has remained nonsectarian and is said to be the oldest such institution west of the Appalachian Divide.

From the outset, Blount College was all-male, as were most colleges at the time. The restriction was ended in 1892, when the first women students were admitted. The University of Tennessee thereafter was fully coeducational.

In 1862, the Morrill Act passed by Congress, which the University of Tennessee, selected as the state's Federal Land-Grant Institution, under terms of the act, enabled the University to broaden its offerings to its curriculum, as well as military science, which the Morrill Act required.

Ten years later, East Tennessee University was chosen by the state legislature as Tennessee's State University, and its name was changed to the University of Tennessee. The University pledged itself to the service and interest of the entire state, and the state pledged its name and reputation to the University, promising the institution a vital role in the progress of the state.

Today, the University is a statewide institution by virtue of its physical locations as well as its services. The medical campus, founded in Nashville and acquired by the University in 1879, was moved to Memphis in 1911. The Martin campus, established in 1900 as a private institution, became part of the University of Tennessee in 1927. A fourth primary campus was established in 1969 when the University of Chattanooga merged with the University of Tennessee. A graduate education and research center, the University of Tennessee Space Institute, located near Tullahoma, was established in 1964.

Three statewide programs—the Institute of Agriculture, the Institute for Public Service, and the Division of Continuing Education—extend the University beyond its campuses to serve the entire state.

The statewide University is administered by a president and central staff headquartered in Knoxville. A chancellor directs each primary campus.

State legislatures and governors, particularly those of the past half century, have shown an active interest in the development of the University of Tennessee. Their support has helped the University broaden and strengthen its efforts to meet the educational, research, and service needs of the people of Tennessee through programs which have earned national and international recognition.

ACADEMIC COMMON MARKET

The University of Tennessee, Knoxville, is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, masters, and doctoral degrees. The Academic Common Market is an agreement among Southern states for sharing unique programs. Participating states can make arrangements for their residents who are fully admitted to specific programs at UT Knoxville to enroll on an in-state tuition basis, if these programs are not available in the state of residence.

Today, the University is a statewide institution, occupying more than 400 locations across Tennessee, responding to the needs of working adults who are seeking college degrees or preparing for career advancement.
ADULT STUDENT SERVICES CENTER

The Adult Student Services Center was created to help students who have delayed or interrupted their college education for a period of time and to assist students older than average (25 years or older). Specifically, the office works with other departments on campus to provide admissions and readmission counseling, academic advising, peer support programs, orientation programs, information about career and financial aid, and educational workshops for adult students. Personalized referral for university services will be made as well.

The Office of Adult Student Services Center is located at 41 Student Services Building. 8:00 a.m.-6:30 p.m. on Monday, Tuesday and Thursday; and 8:00 a.m.-5:00 p.m. Wednesday and Friday.

THE HONOR SOCIETY OF PHI KAPPA PHI

Phi Kappa Phi is an interdisciplinary honors society, tracing its origins to 1897. The society promotes the goal of superior scholarship in all fields of study. It encourages a superior attitude in students and the supervision of academic development of its members. Phi Kappa Phi has invested more than $3 million in fellowships and awards since 1970.

The University of Tennessee Chapter initiates outstanding junior, senior, and graduate students each fall and spring semester. UTK alumni are initiated each fall, and selected faculty are initiated each spring.

The John and Dorothy McDow Scholarship is awarded annually to a new inductee of the Society with junior standing at the time of induction. Dr. McDow, former UTK Agricultural Engineering Professor and Dean of Admissions and Records, served as president of the UTK chapter as well as the national organization.

ADMISSION TO THE UNIVERSITY OF TENNESSEE, KNOXVILLE

As the state's largest and most comprehensive university, The University of Tennessee, Knoxville seeks to provide high quality educational programs for all students who have the academic ability and motivation to adapt to and profit from a baccalaureate education. Similar opportunities are available at the graduate level, see the Graduate Catalog. While the majority of students at UT Knoxville are residents of the State of Tennessee, the university welcomes qualified students from other states and from outside the United States. Students from a variety of cultures and nationalities contribute to the total educational experience for all.

The curricula, supporting programs, and administrative structure at UT Knoxville are designed to serve students bringing with them a variety of academic backgrounds and experience. Honors courses and sections and special programs challenge a student who previously has demonstrated outstanding overall academic attainment or skills in a particular subject area. However, experience has shown that other students can achieve a high level of attainment. This achievement is of vital importance to the student, the University, and the State. The student's motivation must be sufficiently strong and the University must provide the necessary attention of concerned teachers and advisors. UT Knoxville encourages persons whose interests and goals have changed with time. Many adults who have little or no college work find that, after some years in the working world, they are both willing and able to take advantage of the study opportunities provided by a major university such as UT Knoxville. Others who have completed a program of study or have received a degree may desire to return to college. Whatever the reason, UT Knoxville is designed to accommodate such students. The administration must provide the necessary facilities.

A secondary subject area interest (to the major) represented by a specified set of hours and/or courses. Differ from "concentration" in that a minor is not a subdivision of the major subject area.

Option
A concentration of elective courses within a major which emphasizes one aspect of the major, chosen by a student according to his/her interests.

Orientation
A meeting (or series of meetings) designed to acquaint a new student with the facilities, policies, sources of information and assistance, and academic and social atmosphere.

Prerequisite
A requirement to be completed (or a level of skill or knowledge to be demonstrated) before enrollment in a course, a degree program, or association with a college.

Proficiency exam
A test given to an admitted student to evaluate knowledge or skills normally acquired through completion of a particular course.

Progression
An internal evaluation process in some colleges or degree programs by means of which a student's academic standing is examined to determine if prior work is complete and if the student should proceed towards completion of the remaining degree requirements. The most common evaluation point is at the end of the sophomore year.

Quality points
Academic performance records are compiled through use of a scale assigning 4 "quality points" per semester hour of credit for an "A" grade ranging to 1 quality point per semester hour of credit for a "D" grade.

Registration
The process of officially gaining entrance into one or more courses.

Semester
The division of the calendar year used in academic scheduling. A semester is roughly 4 months in duration.

Semester hour
The unit of academic credit at UT, Knoxville.

TOEFL test
An internationally administered examination measuring ability to use the English language. Required of any international student applying whose native language is not English. For information and to make arrangements to take the examination, contact:

The Test of English as a Foreign Language
Educational Testing Service
Princeton, NJ 08540

University honors
Non-departmental enrichment courses available (by invitation only) from the University Honors Program.

Upper division
1. Courses normally taken during the junior and senior years (300 and 400 numbers). A student taking primarily junior and senior courses is said to be an upper division student. Credit for upper division courses may be labeled "UD credit" on a transfer evaluation.
2. The state of being classified as a junior or senior.
